## **What is mild hybrid in a Volvo?**

### **Mild Hybrid Cars| Volvo Cars**

The mild hybrid, also known as MHEV or the integrated started generator (ISG), is a powertrain that utilizes both a combustion engine and an electric motor to minimize CO2 emissions, improve the fuel economy and provide performance benefits.

### **Redefine your experience.**

You're one step closer to more considerate mobility.

**Go the extra mile.**  
Harness energy for a smoother drive with our mild hybrids.

**Reduce tailpipe emissions**

Our mild hybrids recover energy produced when braking and store it in a 48V battery. When this energy is used, fuel consumption and tailpipe emissions are both reduced.

**Mobility Refined**

The XC60 mild hybrid has been engineered to deliver smooth take-offs and refined acceleration making both city and highway journeyd more refined.

**Fuel Savings**

Every drop of fuel saved helps - and in our mild hybrids, you enjoy lower fuel consumption without experiencing performance compromises.
